VI STT	Saint Thomas		Port; Airport;	Code adopted by IATA or ECLAC	1821N 06456W
VI STX	Saint Croix		Road terminal; Airport;	Code adopted by IATA or ECLAC	1745N 06444W

---

[i] This column contains the geographical coordinates (latitude/longitude) of the location, if there is any. In order to avoid unnecessary use of non-standard characters and space, the following standard presentation is used:

0000*lat* **00000***long* (*lat* - Latitude: N or S ; *long* – Longitude: W or E, only one digit, capital letter)

Where the last two rightmost digits refer to minutes and the first two or three digits refer to the degrees for latitude and longitude respectively. In addition, you must specify N or S for latitude and W or E for longitude, as appropriate.
